Technician Announcement Number: 04-014

AGR Announcement Number: 04-119

Position: Aircraft Electrician, WG-2892-11

Brief Description of Duties: Performs functional tests, analyzes performance and troubleshoots the electronic, electrical, hydraulic, pneumatic and mechanical functions of the subsystems integrated into the digital brake/antiskid system, maintenance annunciation panel (MAP) system of the integrated main generator, standby generator, emergency generator, flight control power, AC/DC power distribution and sub-systems integrated into the electronic/electrical and environmental systems. The environmental system includes compression, distribution, pressurization, heating, cooling, temperature control, moisture/air contamination control, and liquid cooling requirements. Removes, repairs, calibrates, installs, aligns, inspects, and conducts operational performance checkouts on the components of the electronic/electrical and environmental systems. Maintains and operates various types of test equipment such as oscilloscopes, diagnostic computers, digital and analog multi-meters, constant speed drive test stands, voltmeters, ammeters, etc. Interprets electronic terms and symbols, and applies a variety of electronic formulas, tables and charts in order to perform fault isolation and repairs to systems and sub-systems. Complies with safety, fire, security, and housekeeping regulations. Ensures that material, equipment and components are properly stored, protected and maintained. Performs other duties as assigned.

Qualifications: WG-11

General Experience: Experience, education, or training which has provided a knowledge and skill in locating and tying in the electrical systems with the aircraft armament, electronics, and instrument systems, adjusting and calibrating the components of the various electrical systems. Ability to read and interpret blueprints, wiring diagrams and schematics.

Specialized Experience:

Must demonstrate **Eighteen (18) months** experience in which the following Knowledge, Skills, and Abilities (KSA's) as described below have been attained.

Knowledge, Skills and Abilities (KSA's) Statements

- A. Ability to troubleshoot more complex malfunctions when unusually thorough knowledge is required.
- B. Skill in using hand-tools and measuring equipment.
- C. Ability to read and interpret circuit diagrams, electrical blueprints, schematics and ability to identify components and symbols.
- D. Knowledge of and skill in repairing, inspecting, and overhauling aircraft electrical systems.

This announcement must be posted on unit bulletin boards until the day following the closing date.

**Current Unit assignment, AFSC/SSI and Military grade must be included on application.
Incomplete applications will not be considered for employment.**
